PROFESSIONAL SUMMARY

Computer Science & Engineering graduate with hands-on experience building responsive web applications using React.js, JavaScript, Node.js, Express.js, and MongoDB. Experienced in REST APIs, authentication, responsive UI development, API integration, and full-stack project development. Seeking a Junior Frontend, React.js, or MERN Stack Developer opportunity.

Education

B.Tech – Computer Science & Engineering (AI & ML)

Dr. A.P.J. Abdul Kalam Technical University (AKTU) | 2022–2026 | 66%

12th – Science (PCMB) | SBV Anand Vihar | 2022 | 71%

10th | SBV Anand Vihar | 2020 | 70%

Technical Skills

- **Programming Languages:** Java, JavaScript (ES6+), HTML5, CSS3, SQL, Python (Beginner)
- **Frontend Development:** React.js, React Hooks, React Router, JavaScript, Bootstrap, Tailwind CSS, Responsive Web Design, Framer Motion
- **Backend Development:** Node.js, Express.js, RESTful APIs, Axios, API Integration
- **Database:** MongoDB, Mongoose, SQL
- **Authentication & Security:** Passport.js, Session-Based Authentication, Authorization, Protected Routes, Local Storage
- **Development Tools:** Git, GitHub, Postman, VS Code
- **Core Concepts:** Component-Based Architecture, Reusable Components, CRUD Operations, API Integration, Responsive UI Development

Projects

Find Your Stay | Full-Stack Web Development - find-your-stay-maao.onrender.com/listing

- Developed and deployed a full-stack accommodation platform for creating, browsing, updating, and managing property listings.
- Implemented **authentication, authorization, protected routes, CRUD operations, and reviews** using Passport.js and MongoDB/Mongoose.
- Integrated **Cloudinary** for image uploads and built responsive interfaces using EJS, Bootstrap, HTML5, and CSS3.

Personal Portfolio Website | React.js & Tailwind CSS - portfolio-shaquib.netlify.app

- Developed a responsive portfolio website to showcase projects, technical skills, education, and contact information.
- Built reusable React components with **responsive navigation, project cards, social links, and contact functionality**.
- Implemented **dark/light mode, animations, responsive UI, and client-side routing** using Tailwind CSS, Framer Motion, and React Router.

Fix My Area | Full-Stack / Front-End Web Development – fix-my-area.netlify.app

- Built a civic issue reporting application for reporting road damage, water leakage, garbage issues, and streetlight failures with images and descriptions.
- Designed a responsive, user-friendly interface with a mobile-first approach.
- Implemented complaint tracking and real-time status updates to improve transparency between citizens and municipal authorities.
- Integrated REST APIs for data handling, image uploads, and issue management, improving communication and speeding up issue resolution.
